

WELCOME!

We are so glad you have joined our practice! We are a dental office offering modern general dentistry in a comfortable, relaxing setting. Our services range from regular fillings to whitening to crowns & cosmetic veneers and more, all with a heavy emphasis on patient education. Our hygienists offer simple cleanings to full-mouth deep scaling for those who require it. We also offer non-complex tooth extractions and root canals, and are happy to refer more complex cases to our specialist friends in the area. Implants, snore appliances, simple orthodontic tooth movement and Botox are other services offered. Children are welcome, and we refer any complex teeth alignment problems to area orthodontists. We do all this using the latest in dental technology, such as CEREC same day crowns, soft tissue lasers, intraoral cameras and 3D cone beam CT scans.

You will find in this packet materials that need to be filled out as completely as possible so that we can have a clear picture of your needs. Please let our office know if you have any questions, concerns or if you need help filling out these forms. We look forward to meeting you and working with you to manage or improve the health of your mouth together.

Keeping your appointment time is crucial to the success of your treatment--we believe our patients experience better outcomes when they actively participate in the care of their mouth and its components. We offer many ways to confirm your appointment time with us. Just let us know which method works best for you.

Again, welcome to our practice! We are glad you have placed your trust in our office and will do everything possible to exceed your expectations. See you soon!

Sincerely,

A handwritten signature in black ink that reads 'Paul Holliday DDS'. The signature is written in a cursive, flowing style.
